Best Practices of Advocacy and Messaging

**Be credible.** Make sure you’re well brief and backed by the data, evidence and personal stories to support your position.

**Be clear about the message.** Make each message simple and direct. Be precise and typically cover only one topic in each message, letter, email, call or fax or visit.

**Build alliances.** Align your organization with others who support your issues. Join committees and coalitions who are already lobbying in areas that affect the community you serve – there is power in numbers.
