

National Brownfields Coalition Partners
shape and achieve progressive

BROWNFIELDS POLICY

Whether a private company, public agency, non-profit organization or academic institution, members of the National Brownfields Coalition shape the federal policies that help clean up and reuse blighted, underutilized or contaminated land equitably and cost-effectively.

Become a Member of the National Brownfields Coalition now and build the nation's brownfield strategy

The National Brownfields Coalition (NBC) Membership Program is a powerful way for the public, private and non-profit sectors to advance national brownfield policy within the exciting federal landscape we are in now, yielding millions of federal dollars toward brownfield projects. Members shape how the nation understands the issue of brownfields and advance new solutions that clean up and redevelop contaminated or underutilized land. We are committed to welcoming members from all backgrounds and will gladly work with non-profit organizations and individual prospective members to address any challenges or barriers to joining the Coalition. Please do not hesitate to reach out to us to identify opportunities for your involvement.

Convene

We bring together leading experts to develop and shape federal brownfield policy.

Educate

We collaborate with emerging and experienced professionals to identify hot issues and cultivate leadership.

Advocate

We advocate for federal authorization and appropriations policies that support cleanup and redevelopment.

*Those representing a non-profit or government entity may inquire about a reduced or waived membership fee.
